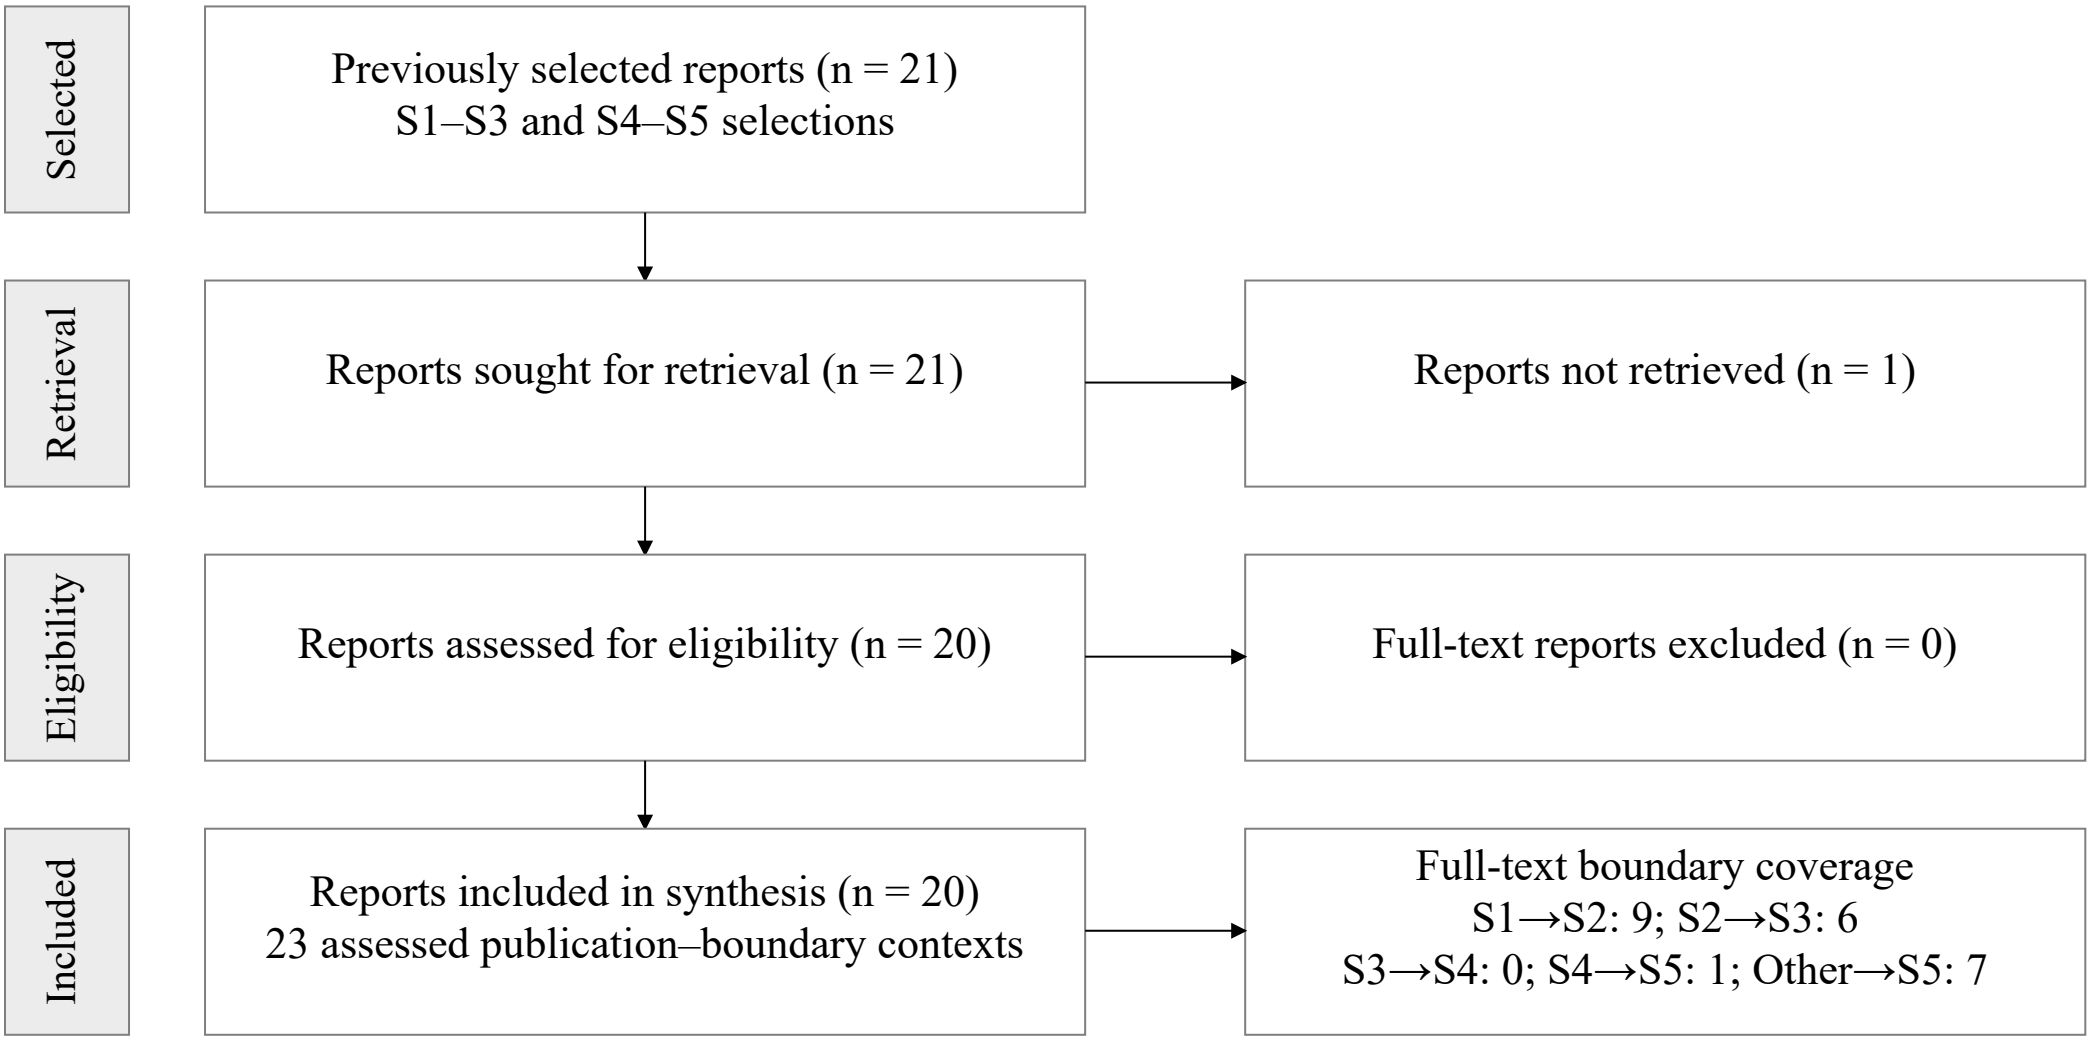
A Base to uncertainty-layer membership: matched archived records

Stage	Base	Base ∩ U	Share of Base	Base outside U
S1*	878	256	29.2%	622 (70.8%)
S2	246	44	17.9%	202 (82.1%)
S3	165	48	29.1%	117 (70.9%)
S4	3,098	543	17.5%	2,555 (82.5%)
S5	7,593	1,584	20.9%	6,009 (79.1%)

* S1 U includes reconstructed Scopus membership; its percentage is provisional.
S3 U totals 49: 48 overlap Base; one U-only record is retained separately.
Outside U means no matching layer membership, not evidence of no uncertainty analysis.

B Selected S1–S5 + U reports: retrieval, eligibility and inclusion

Separate selected-set pathway; no inferred funnel from panel A to these 21 reports.



U membership, title/abstract treatment and full-text transfer evidence use different denominators.
Broad eligibility remains open. Stages overlap; stage counts must not be summed.
